- ♦ Maintained high coding standards through meticulous version control, comprehensive testing, and adherence to web accessibility guidelines

SKILLS

Agile Methodologies, Performance Optimization, Code Quality Assurance, Coding Standards, Front-End Frameworks, Systematic Testing, Debugging Techniques.

EDUCATION

PROJECT MANAGEMENT

Jan 2024 - Aug 2025

Cambrian college

North york, ON

Graduating from Cambrian College with a focus on Project Management equips students with the skills and knowledge to lead diverse projects across industries. The program emphasizes key areas such as project planning, risk management, budgeting, and stakeholder communication. With hands-on learning and exposure to real-world scenarios, graduates are prepared to manage projects efficiently, meet organizational goals, and adapt to dynamic work environments. This achievement marks a significant step toward becoming a certified and sought-after project management professional.

BACHELOR OF COMPUTER APPLICATION

Jul 2015 - May 2019

Sangai University

India

Graduating from Sangai University with a Bachelor in Computer Applications (BCA) signifies a strong foundation in computer science and information technology. The program equips students with essential skills in programming, database management, software development, and web technologies. With a blend of theoretical knowledge and practical experience, graduates are well-prepared to meet the demands of the ever-evolving IT industry and pursue careers in software development, IT consulting, and data analytics or further studies in advanced computing fields.
